

# Introducing **EZ-Stop** Braking System

Eliminates the need for a brake controller in the towing vehicle.

Remote controller will adjust the amount of braking necessary from the towing vehicle.

Eliminates the need for, and the associated problems with hydraulic surge brakes.

**No  
Installation  
Required**

## **Unadvertised Special** **EZ-Stop** **Introductory Sale**

Regular Price \$632.00

**SALE PRICE \$469.00**

**Limited Time Only!**

Plug trailer cord into EZ-Stop, then plug EZ-Stop four way flat connector into towing vehicle.

Indicator lights show properly functioning equipment.

Locks brakes on command from towing vehicle to meet DOT requirements.

Quickly attaches to different trailers by use of heavy duty magnet.

Excellent for rental trailers and large fleet use.

1 Year limited warranty.

# **EZ-Stop is the Safe (and Legal) Alternative to Surge Brakes**

## **Surge Brakes on Commercial Trailers Do Not Comply with DOT/FHA Regulations**

From DOT/FHA: Surge Brakes on Commercial Trailers: From DOT "Regulatory Guidance for the Federal Motor Carrier Safety Regulations, FHA" Issued Nov. 17, 1993, Rules and Regulations, 49 CFR Chapt. III. Sect 393.48 Brakes to be Operative:

Question 1: Do surge brakes comply with 393.48?

Guidance: No. Section 393.48 requires that brakes be operable at all times. Generally, surge brakes are only operative when the vehicle is moving in the forward direction and as such does not comply with Section 393.48

Question 2: If a Commercial Motor Vehicle manufactured after July 25, 1980 has a brake component on the front axle and the brakes are not operable, does the vehicle comply with Section 393.48?

Guidance: No.

Section 393.49 Single Valve to Operate All Brakes:

Question 1: Does a combination of vehicles using a surge brake to activate the towed vehicle's brakes comply with Section 393.49?

Guidance: No. The surge brakes cannot keep the trailer brakes in an applied position. Therefore, the brakes on the combination of vehicles are not under the control of a single valve as required by Section 393.49.
